Chemtura is a leading manufacturer of alkylated diphenylamine antioxidants (ADPA) which meet the challenging and ever evolving requirements of industrial and transportation lubricant standards.

NAUGALUBE® 750 is a liquid antioxidant for use in a broad range of industrial and transport lubricants. It offers excellent protection against high temperature oxidation and lubricant degradation in mineral and synthetic based fluids providing superior performance when formulated in Group II, III and IV formulations. Typical treat levels may range between 0.05% and 1.0%. NAUGALUBE® 750 can also be used in conjunction with other NAUGALUBE® antioxidants such as alkylated diphenylamines, alkylated phenyl-α-naphthylamine and/or hindered phenolics.
Additive volatility can influence lubricant performance characteristics. Thermogravimetric analysis (TGA) of NAUGALUBE® 750 demonstrates its excellent thermal and oxidative stability.

Turbine Oil Oxidation Stability by RPVOT

RPVOT (Rotating Pressure Vessel Oxidation Test) performance testing shows superior antioxidant properties performance over the phenolic antioxidant in both Group I and Group II turbine oil formulations with a clear and significant performance boost achieved with NAUGALUBE® 750 in the Group II based oil.

Shipping Information: Tank cars, tank trucks, and non-returnable drums.

Storage and Handling
Please read the Safety Data Sheet (SDS) and container label before using any product. The SDS contains important information regarding the safety, handling and storage of this product. The information contained herein is correct to the best of our knowledge. Your attention is directed to the pertinent Safety Data Sheets for the products mentioned herein. All sales are subject to Chemtura’s standard terms and conditions of sale, copies of which are available upon request and which are part of Chemtura’s invoices and/or order acknowledgments. Except as expressly provided in Chemtura’s standard terms and conditions of sale, no warranty, express or implied, including warranty of merchantability or fitness for a particular purpose, is made with respect to the products described herein. Nothing contained herein shall constitute permission or recommendation to practice any invention covered by a patent without a license from the owner of the patent.

Responsible Care®
Chemtura is dedicated to Responsible Care, the chemical industry’s initiative to protect the environment; ensure the safety and security of our operations; and safeguard the health and safety of our employees and neighboring communities. Our goal is to make continuous progress towards the vision of no accidents, injuries or harm to the environment. We care about the future - for all of us. If you have any questions, or would like to comment on our Responsible Care Program, please send an email to RCMS@Chemtura.com
