NAUGALUBE® 438
Octylated Diphenylamine Antioxidant

NAUGALUBE® 438 is a solid antioxidant for use in a broad range of lubricants including turbine oils, gear oils, hydraulic fluids, compressor oils and greases. It provides excellent protection against high temperature oxidation and lubricant degradation in mineral and synthetic based fluids. Typical treat levels may range between 0.05% and 1.0%.

NAUGALUBE® 438 can also be used in combination with other alkylated diphenylamines, phenyl-α-naphthylamine, hindered phenolics and/or secondary peroxide decomposer antioxidants, as well as appropriate metal deactivators, for enhanced performance.
## Features

<table>
<thead>
<tr>
<th>Ashless antioxidant</th>
<th>High molecular weight antioxidant</th>
</tr>
</thead>
<tbody>
<tr>
<td>Compatibility with exhausts after treatment systems</td>
<td>Low antioxidant volatility yielding prolonged presence in finished formulations</td>
</tr>
<tr>
<td>Excellent high temperature performance providing effective control against viscosity increase</td>
<td>Reduced oil oxidation and prolonged lubricant life</td>
</tr>
<tr>
<td>High purity with low sludging characteristics</td>
<td>Decreased wear, plugging and mechanical seal damage</td>
</tr>
</tbody>
</table>

### PDSC (Pressure Differential Scanning Calorimeter) testing highlighting the relative antioxidant performance of NAUGALUBE® 438 against phenolic antioxidant chemistry in fully formulated Passenger Car Motor Oil based on Group I and II base stocks. The results reveal a clear and significant boost in antioxidant properties by using NAUGALUBE® 438.

### RPVOT (Rotating Pressure Vessel Oxidation Test) performance testing showing the antioxidant performance of NAUGALUBE® 438 in Group I and II based turbine oil formulations at varying treat rates. These are referenced against formulations containing no antioxidant.

### Shipping Information:

- 20kg bags

**Storage and Handling**

Please read the Safety Data Sheet (SDS) and container label before using any product. The SDS contains important information regarding the safety, handling and storage of this product. The information contained herein is correct to the best of our knowledge. Your attention is directed to the pertinent Safety Data Sheets for the products mentioned herein. All sales are subject to Chemtura’s standard terms and conditions of sale, copies of which are available upon request and which are part of Chemtura’s invoices and/or order acknowledgments. Except as expressly provided in Chemtura’s standard terms and conditions of sale, no warranty, express or implied, including warranty of merchantability or fitness for a particular purpose, is made with respect to the products described herein. Nothing contained herein shall constitute permission or recommendation to practice any invention covered by a patent without a license from the owner of the patent.

**Responsible Care®**

Chemtura is dedicated to Responsible Care, the chemical industry’s initiative to protect the environment; ensure the safety and security of our operations; and safeguard the health and safety of our employees and neighboring communities. Our goal is to make continuous progress towards the vision of no accidents, injuries or harm to the environment. We care about the future - for all of us. If you have any questions, or would like to comment on our Responsible Care Program, please send an email to RCMS@Chemtura.com.
